

# ACRYRED

COST Action CA21149 • Reducing Acrylamide exposure of consumers by a Cereals supply-chain approach targeting Asparagine

## Training School

*Building Skills on the Evaluation of Acrylamide Mitigation Measures in Cereal-based Products with a Risk-Benefit Balance Approach Considering Industry Perspectives and Regulations*

1-3 October 2024

Department of Food Engineering,  
Hacettepe University Ankara, Türkiye

This article/publication is based upon work from COST Action ACRYRED, CA21149, supported by COST. COST (European Cooperation in Science and Technology) is a funding agency for research and innovation networks. Our Actions help connect research initiatives across Europe and enable scientists to grow their ideas by sharing them with their peers. This boosts their research, career and innovation.
